HAVE A LOOK

AT OUR SILVER LEVER WATCH at Rs. 35 before buying, and you will give it the preference before any other.

The Watch as it is now, is the result of 20 years experience in the Indian watch trade, and we guarantee it to be the most perfect watch ever offered to the public for such a small outlay.

Being the manufacturers ourselves, the buyer obtains the watch from first hand. This explains its cheapness.

The Watches are of medium size in heavy engine turned silver cases, either hunting or half hunting. Guarantee 3 years.

To be obtained only direct from our firms at Bombay, Calcutta, and Secunderabad.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, OCT. 8.

We have had a most opportune fall of rain within the past week which has been of great benefit to the crops of Grain and Cotton throughout the whole of the Bombay Presidency, but more particularly in Guzerat and Kattiwar, where the position was rapidly becoming critical from prolonged drought. Now, however, prospects are so far assured that the Monsoon crops are safe, unless from exceptional damage by late rains, while the cold weather crops of Wheat and Seeds which are now being put into the ground get a favourable start.

In the way of current business the week opened with considerable promise of activity, but within the past few days a generally quiet tone has supervened. In Imports this has been partly induced by weaker Exchange, and in part by a natural pause on the part of buyers after the previous activity. The contraction in Exports, however, has been due to several causes. Cotton buying is checked by an adverse turn in the home advices and small ready stocks; while Wheat and Seeds are feeling the effect of a further rise in Freights—which are now quoted at 23s. 9d. to 25s. new scale—in addition to great firmness on the part of up-country sellers, who judging of the future from the eagerness shown by buyers a short time ago when Exchange and Freights were both at a very low level, seem to think they have only to hold on long enough to get their own prices. Reserve stocks though are undoubtedly large, and when the storage pits in the districts are freely opened, as they will be after the *Dussera* holiday ten days hence, there will probably be more readiness to do business, especially with the new sowings starting under favourable auspices. Money continues remarkably easy, and Sterling Exchange has been quiet and easier without material fluctuation. Government Paper keeps dull; Shares steady.

MONEY.—There is no indication as yet of any approaching change in the position of the market. That an upward turn must set in when our new crops of produce come to be financed for goes without saying, but it is impossible yet to form any idea when that may be within a margin [illegible] weeks. Cotton at the moment [illegible] an early crop, and there will be [illegible] of Wheat to provide for, but [illegible] that easy money is pretty well [illegible] the turn of the year. The last [illegible]k of Bombay showed a further [illegible]hs in the Cash Balance. From [illegible] by wire to-day that the Bank [illegible] are down 14 lakhs, but that no [illegible]hdrawls in anticipation of the [illegible]ough the tendency of the [illegible] has been towards lower rates, [illegible] very gradual and on the week [illegible] difference of 3-32d. per rupee. [illegible] closing quotations were [illegible]d Bank Bills and 1s. 6 13-32d. [illegible]ts, from which no quotable [illegible] Monday when a decline of [illegible]ed. On Tuesday and Wednes[illegible] maintained unaltered by the [illegible]ho kept out as a seller, but [illegible]ver, and to-day, with the [illegible]dings for Council drafts [illegible]lakhs being sold at a [illegible] we have to quote a [illegible] and 1-32d. in private [illegible]osing rates this even-

[illegible]..1s. 6d.		per rupee.

[illegible]he Banks have been [illegible]he week at an advance [illegible]r month forward up to [illegible]not been sellers on any[illegible]erms, and this fact illustrates [illegible] in the market at the moment, [illegible]tly in favour of lower rates. The [illegible] direction is still to be found in the [illegible]mport trade over exports, and the [illegible]preponderance of the demand for remit[illegible]er the amount of private paper offering. The [illegible]nty regarding the future of Silver doubt[illegible] the weakness thus engendered, although [illegible]e time we must say there is less of a [illegible] tone expressed respecting the ultimate [illegible] rupee than was the case two or three [illegible] An opinion is steadily gaining ground [illegible]ties to the Latin Monetary Union will [illegible]*vendi* for another year or two at [illegible]e American legislature if they do [illegible]ing the abolition of the Bland Act [illegible]pish it by arranging an intermet[illegible]ch will prevent any sudden panic [illegible]arket. The strongest argument in [illegible] in the fact that it is clearly in [illegible] America herself to avoid such a [illegible]tive value of Silver as the imme[illegible]he dollar coinage and realisation [illegible]ks of the metal would mean. It [illegible]solute loss on the Silver itself [illegible] prospective production which [illegible]d, but the enormous depreciation [illegible]alue of her produce which would certainly [illegible] Some slight idea of what that might amount [illegible]ay be gathered from the fact that 10 per [illegible]n this year's crop of Cotton and Wheat alone [illegible]ould come to over ten millions sterling, and the depreciation would be by no means confined to those two articles. We think, therefore, that while we may have to face a period of depressed Exchange the fall will be neither so sudden nor extensive as many authorities predict, and we are glad to find the weight of commercial opinion tending in that direction.

Bar Silver in London yesterday receded from 47¼d. to 47 5-16d. per oz., but the shipments for this side reported by wire are so far only £20,000. The increase to 20 lakhs per week in Council drafts of course means a corresponding diminution in the amount of Silver remitted, and it is only to be regretted now that the controllers of the Government operation should have restricted their drawings so materially a couple of months ago, and so driving the Banks into Silver as a medium of remittance. The balance of Silver in the Mint as shown in to-day's *Government Gazette* is as follows:—

	Rs.
Balance of Silver in the Mint on 28th Sept. ..	67,59,069
Silver received during the week ..	12 06.299
	79,65,368

GOVERNMENT PAPER.—The tone of the market for Paper in sympathy with Exchange has been exceedingly quiet with gradually declining values. A week ago Fours stood at Rs. 97¼ readily, Rs. 97 9-16 forward. On Mail-day a decline of 1-16 took place in the former quotation, but no further movement occurred until Monday when an additional 1-16 was lost. A similar reduction followed on Tuesday and again to-day, closing rates being Rs. 97 7-16 ready, Rs. 97 5-16 forward. Fours-and-a-half were steady to begin with at Rs. 99 buyers, but have since receded to Rs. 98¾ sellers.

Transactions of late have been somewhat limited in amount and are likely to continue so, while Exchange wears its present aspect.

SHARES.—The timely rainfall in Guzerat and Kattiwar exercised an improving influence on the market in the early part of the week and a considerable recovery in values was established which has been fairly maintained since, although the tone at the close is scarcely so active. *Spinning Mill* shares have mainly felt the improvement, and our quotations exhibit a general rise of Rs. 10 to Rs. 15 per share, although there are some few exceptions which have lost ground to a slight extent, notable, Anglo-Indians by Rs. 3, Dhurrumseys by Rs. 2½, Empress Rs. 10, People of India Rs. 15, Imperial Rs. 20, and National Rs. 30. *Press* Companies shares are all better on the strength of improved crop prospects. Fort are up Rs. 75, Albert of Kurrachee Rs. 25, Mofussil and Berar Rs. 10, Prince of Wales Rs. 5. In *Bank* of Bombays we quote an improvement of Rs. 14, other Banks are unchanged. In the *Miscellaneous* list, Bombay Burmah Trading Co.'s shares have shown the heaviest fluctuations, but close at a recovery of Rs. 325 in first, Rs. 75 in second, and Rs. 85 in third issue. Port Cannings are Rs. 5 lower. Treacher and Co., Ld., are quoted Rs. 20 down but with buyers at the price. In Flour Mills, Bombay have receded to Rs. 690 x div., Bapty Bros. to Rs. 205, Western India to Rs. 145 per share.

IMPORTS.

PIECE-GOODS.—In the first instance a rise of about 3d. per piece in Manchester and latterly the decline in Exchange has kept within comparatively small limits what would otherwise have been a very large business for future shipment. On the spot, however, an active trade has prevailed throughout, the generally favourable crop accounts and the undoubtedly low level of stocks in the chief consuming centres having attracted buyers from all the leading markets. Dealers estimate the week's clearances from the bazaar at 4,500 to 5,000 packages, and prices are higher in most instances by 1 to 2 annas per piece in Grey Cloths. Dyed and Printed Goods have also shared in the improvement, but in both Bleached and Turkey Red Goods, although an active business has been done, there is little practical movement in values just at the close there is perhaps rather less doing, partly owing to the pause which usually follows a period of exceptional activity and partly to weaker advices from Manchester inducing buyers to hold off in expectation of getting in on easier terms. The outlook, however, is all in favour of a largely increased trade during the coming season, and any interval of slackness now is not likely to be of long duration.

Local-made Goods are in active request at rather higher prices.

TWIST.—The market for imported Yarns has not shared the same activity as goods. A fair extent of business has been done, but neither on the spot nor to arrive have prices quotably advanced. Local Yarns are steady at previous rates. Sellers are asking a slight advance which buyers are reluctant to pay.

METALS.—*Copper* meets a steady enquiry from second hands and fair clearances have been affected, but lower prices from home check any tendency to improvement here, and we still quote Braziers at Rs. 34½ to Rs. 34¾ per cwt. *Yellow Metal* we call quiet, but steady with Braziers at Rs. 29½ to Rs. 30 per cwt. *Iron* is firm but not dearer.

COAL.—There is nothing doing in near arrivals but for December-January shipment we hear of sales of Davison's West Hartley at Rs. 15 and Cardiff at Rs. 16 per ton alongside.

EXPORTS.

COTTON.—The Liverpool telegrams in the early part of the week reported strong markets with advancing prices, but for the past two days, owing we hear through private channels to a favorable American Crop report issued by the National Exchange New Orleans, and better advices from this side regarding Broach and Dholleras, a weaker tone is advised with a reaction equivalent to about half the previous advance. At no time during the week however were buying orders from the other side at all plentiful, so that exporters never evinced much anxiety to operate. Dealers for a time were disposed to put up their rates and in old Cotton owing to the paucity of supplies have indeed established an advance of Rs. 2 to Rs. 3 per candy; but in new crops, encouraged by the improved accounts from up-country they were not long in reducing their demands, and business to a moderate extent has been done at a decline of Rs. 3 per candy from the highest point. The transactions have mostly been in Bengals for December-January delivery other descriptions and later shipment meeting almost no enquiry.

The arrivals and shipments of the staple, as will be observed from the subjoined figures, continue insignificant in amount, nor can we look for much alteration in that respect until new cotton begins to push free enough to render dealers pressing sellers. According to all accounts this ought to be particularly early this season, the general idea at present being that we shall have arrivals of Bengals in October, Omras in November, and Broach in February, but that of course depends on the weather in the interval. At the moment, prospects of the crop are most encouraging as will be seen from to-day's Chamber of Commerce reports, but after the experience of last season and what late rains did then it would be manifestly unsafe to talk of probable out-turn yet a while.

The movements of Cotton to date show the following comparisons with the two previous years:—

BROACH—Cotton plants flourishing. Food grains doing well.
WUDWAN—Cotton plants flourishing.
VERAMGAUM—Cotton plants want more rain.
DHOLLERA—Cotton plants flourishing.

WHEAT.—The arrivals continue exceptionally large for this period of the season and exports are proportionately heavy under previous contracts. New business however has been somewhat held in check by the further advance in Freights and the firmness shown by up-country buyers. Still the whole tendency of the trade is towards large movements as the stocks remaining up-country are liberal and will be freely marketed after the new sowings get a start, even should home reports prove less encouraging in the future than they at present promise. The drop in Exchange it must be remembered affords what so seldom goes together full prices for a large crop. Prices on the week are the turn dearer. We quote No. 1 Soft White Rs. 2¾ to Rs. 2⅞, Soft Red Rs. 2⅝ to Rs. 2⅝, Laskari Rs. 2¾, Hard Red Rs. 22 per candy.

SEEDS.—*Linseed* is still arriving on a fair scale and after an interval of quietness is firm again at Rs. 6-13 to Rs. 6-14 ready, Rs. 6-1-6 for New April-May delivery. Of Old *Rapeseed* supplies are small. Yellow Guzerat is quoted at Rs. 6-5 ready, Rs. 6-1 per cwt. for April-May. Of *Gingelly* we have still next to nothing coming forward nor are crop reports promising. We quote Rs. 37½ for White, Rs. 35½ per candy for mixed seed November to January delivery.

The comparative imports of Wheat and Seeds are as follows:—

The prospectus appears in another column of the Royal Flour Mills Company, Limited, which is being formed in Bombay with a capital of two lakhs and a half. The company starts under favourable auspices, more than half the capital having been privately subscribed; and as to the general question of the opening in India for flour mills, it may be interesting to quote the following passage from the recent official review of the external trade of India for 1884-85, in which after remarking that the quantity of flour exported from India had increased in the year from under eight millions to over eleven million pounds, the writer says, "Some day in the future, perhaps, a really large trade may arise in the export of flour from India to Europe, such as now exists from the United States. There is no apparent reason why it should not begin now; but at present the exports, small as they are, proceed from Bombay almost entirely. There seems to be some prospect of the establishment of steam flour mills in that city capable of doing more than merely supply the local demand.

THE ABYSSINIAN VICTORY.

GREAT SLAUGHTER OF THE ARABS

DEATH OF OSMAN DIGMA.

LONDON, OCT. 8.

Further accounts of the victory gained by the Abyssinian forces under the command of Ras Alula over the Mandists on the 23rd Sept imber state that the Abyssinians found the Arabs, under the leadership of Osman Digma, in a strongly entrenched position, which they attacked, and carried after desperate fighting on both sides. The Arabs lost three thousand in killed, including Osman Digma, whose body was identified after the battle.

THE CONSERVATIVE PROGRAMME.

LONDON, OCT. 8.

Lord Salisbury delivered a long speech at Newport yesterday, in the course of which he claimed the credit of having settled the Afghan frontier difficulty.

As regards the crisis in Roumelia, his lordship said that armed intervention was impossible. The policy of the British Government would be to uphold Turkish rule wherever it can be beneficially upheld, and to foster autonomous nationalities wherever Turkish rule is found to be inconsistent with the welfare of the population. The supreme object of the Government, however, would be the maintenance of peace.

With respect to local government, his lordship advocated large reforms, and was in favour of the easy transfer of land.

He also advocated the closest union with our Colonies.

In speaking of Irish affairs his lordship said he would refuse to entertain any Irish proposal menacing the integrity of the Empire.

In conclusion, he said he was strongly opposed to the disestablishment of the Church of England.

THE BULGARIAN UNION.

CONSTANTINOPLE, OCT. 7.

His Imperial Majesty the Sultan has accepted in principle the Bulgarian Union.

THE FARTHER EAST.

(FROM OUR OWN CORRESPONDENT.)

COLOMBO, OCT. 8.

The mail news from Hongkong possesses little interest.

Russia is said to contemplate the seizure of the island of Tsushima, between Japan and Korea, with a large well-protected harbour, open throughout the winter.

The Chinese Government are about to connect Korea with Pekin by telegraph.

Imperial docks are to be constructed at Port Arthur.

A French fleet of seven ships, anchored at Chefoo, were detained by a severe epidemic amongst the officers and men, caused by bad and insufficient food. One commander died of enteric fever.

Great complaints are received from Tongking regarding the supplies of food from France and of unsuitable clothing.

Two Chinese ironclads have arrived from Germany.

Severe distress continues in the Canton district owing to failure of the crops from floods. The disbanded Chinese troops, left without money or food, are committing disorders through the country.

A serious affray has occurred at Hongkong, where about a thousand Chinese engaged in a faction fight. Many were wounded, and some killed. The riot was eventually quelled by Europeans and the armed Sikh police.

GOVERNMENT RAILWAY APPOINTMENTS

(FROM OUR OWN CORRESPONDENT.)

SIMLA, OCT. 8.

Colonel Stanton goes home on short leave.

General Hancock officiates for Colonel Trevor, who accompanies Mr. Hope.

Colonels Gordon and Wallace are here settling the details in connection with taking over the S. P. and D. Railway. Colonel Wallace probably succeeds Colonel Gordon.

THE EURASIAN COMMUNITY OF MADRAS.

(FROM A CORRESPONDENT.)

MADRAS, OCT. 8.

The celebration of the anniversary of the Eurasian and Anglo-Indian Association was an unqualified success. Rain fell in the morning, but the evening was fine, and between ten and fifteen thousand persons were present.

The idea of relinquishing the term "native of India," and adopting that of "European British subject," was received with shrieks of laughter.

THE Resolution of Government on the question of the repayment of the Vehar water-works debt by the Municipality was discussed yesterday by the Bombay Corporation. The Resolution, it will be remembered, was in reply to a representation made by the Corporation that the Government had agreed to charge simple interest only for the loan advanced by them. If this view had been accepted by Government the Municipality would have been the gainers to the extent of admesixty-five lakhs of rupees. The Hon. Dadabhai Naoroji went into a long criticism of the Resolution, and concluded his speech by moving a resolution expressing the Corporation's regret that Government were not able to take a more favourable view of the case put forward on behalf of the Municipality, and appointing the following committee to draw up a memorial to the Secretary of State for India:—The chairman, the Hon. Dadabhai Naoroji, Dr. Blaney, Mr. R. N. Khote, and Mr. Javerilal Umiashankar. The motion having been seconded by Mr. Khote, was carried by sixteen votes to six.

We have been asked to remind the racing public that the first entries for the Mhow and Central India Races close on the 15th inst.

OWING to the Town Hall being engaged for a public meeting, the concert which was to have been given in aid of the Byculla School hospital next Monday will be postponed until the following Monday.

THE general summary of the week's season reports published in yesterday's *Government Gazette* states that there has been good rain throughout the Deccan and the Southern Maratha Country, and in parts of Gujarat; but more is still wanted in the north of Gujarat, where the crops are withering. The sowing of the rabi crops is in progress in several districts. The standing crops have been injured by drought and rats in parts of Kurrachee, by storms in parts of Hyderabad, and by blight in parts of Ratnagherry.

IN Berar good seasonable showers of rain have fallen for the kharif crops. Cholera, in a mild form, is still prevalent in some districts. Although sufficient rain has fallen (41 inches) up to date in Nagpore, yet the quantity is 12 inches below the fall of last year for the same period. Timely showers of rain have fallen in the Ahmednuggur district to save the crops. Last month a dearth was anticipated, but fortunately it has been averted. Secunderabad is also fortunate in getting 31 inches of rain to date.

DR. H. COOK has been appointed to act as chairman of the Town Council of Bombay, *vice* Sir Frank Souter, going to England.

THE appointment of Lieutenant-Colonel W. H. Wilson to act as Commissioner of Police, Bombay, during the absence of Sir Frank Souter is notified in yesterday's *Bombay Government Gazette*.

A CORRESPONDENT writes:—Rumour is rife in Berar that Mr. Cordery, C.S., the Resident at Hyderabad, will proceed on furlough almost immediately. Sir Lepel Griffin, K.C.S.I., and Mr. Leslie Saunders, C.S., Revenue Commissioner, H. A. D. (Berar), are spoken of as likely successors. Should the latter succeed to the post—as is most likely—Colonel Bell (M. S. C.), Judicial Commissioner, H.A.D., will probably be appointed to the charge of the Revenue Department.

AT a meeting held at the Joshi Hall, Poona, on Tuesday, resolutions were passed identical with those adopted by the Bombay Presidency Association last week.

THE notification to regulate the religious processions of the Moharrum, and for the preservation of the public peace during the festival, sanctioned by the Right Honourable the Governor in Council under the provisions of section 77 of Act No. XIII. of 1856, published for general information in yesterday's *Government Gazette*.

THE belief prevails in Mysore that the famine which threatened the land is now averted. The rain that fell a short time ago improved matters so much that, though the crops still in many parts be far below the average, all danger of famine has been averted. But though the famine has passed away this year, it may return the next. In the meanwhile it is satisfactory to note that Mr. Gridlestone, the Acting British Resident, and the Dewan had every relief measure mapped out in the Kolar, Tumkur, and Chitaldroog Districts, and were quite ready at any moment to start relief operations. The contemplated relief works were so distributed over the affected area as to keep the villagers within short distances of their homes, and thus preserve their strength to enable them to look after their belongings while earning the necessaries of life. The Dewan personally visited the taluks affected by famine, walking through several of the villages with his staff. A correspondent of the *Bangalore Post* gives the following particulars of the Dewan's mode of operations during the tour:—"The Dewan explained to the officers the principle on which the projects are to be framed. The grand aim of the Government, it was stated, was to save human life and cattle. For the securing of the former, suitable civil agency works, close to a cluster of villages, should be organised, works which are of the kind familiar to the ryot: the weeding and digging of arable waste lands of Government, the construction of small "kattays," the sinking of wells, repairs of cattle pounds, earthwork of tanks, &c. It was impressed upon the minds of the officers concerned that the early commencement of such works would prevent aimless wandering, and consequent misery and waste of money without adequate result. Officers were requested to study the tracts at once, and divide them into sufficiently manageable circles, the object being to provide a suitable civil agency work within three miles of every inhabited village. The district and engineer officers were asked to divide Hiriyur and Sira into circles on the map. For the preservation of cattle, the Dewan promised to give the people additional good pasture lands, taken, if necessary, from the Amrut Mahal Kavals."

HAJEE ABDULLAH, a mysterious person who was recently arrested at Cochin, after Kanovies had been secured, has been released. His case was investigated by the Deputy Magistrate, and, upon the report of the Commissioner of Police, Bombay, that the person in question is a sherbet dealer in Bombay, and not of a suspicious character, he was released.

SIR CHARLES MACGREGOR and Major Nicholson have returned to Simla, and will be busily occupied during the next fortnight in drawing up a report and estimates for the fortified position. One conclusion already arrived at, says the *Pioneer*, is the absolute necessity for the re-afforestation and irrigation of the plateau.

THE new broom in Kashmere is sweeping clean. At a recent Durbar the Dewan read out a list of the reforms which the new Maharaja intends to introduce. They are nine in number, and are as follows:—"The reduction of octroi duty levied on cereals, &c., brought into the city of Srinuggur, from 2 annas to ¼ an anna per rupee; the abolition of the brick monopoly in the city of Jummu, and the reduction of the tax elsewhere; the removal of the tax on the proceeds of sale of horses in Srinuggur; the abolition of the rule that relatives of runaway sepoys be held responsible for their desertion; the abolition of the tax on vegetables; the abolition of the news-writers' tax, amounting to Rs. 60,000 per annum; the abolition of the system of compulsory service in the army, with no pay, but the grant of a piece of land to each soldier in lieu of the same; the abolition of the ekka hire contract; the abolition of the *koodkast*, or cultivation of the ground by Government.

THE objection which prevails in the East to allow women to take women's parts in theatrical performances has been overcome in Ceylon, where for the first time a Sinhalese woman has appeared on the stage. The innovation was very well received by the audience.

IT is well known that the terrible accounts of the condition of the Russian prisons and of the treatment of convicts in Siberia which are given by "Stepniak" and Prince Krupotkine are flatly contradicted by an English traveller, the Rev. Dr. Lansdell. An advertisement appears in *The Times* in which "Ubique" invites "any one who is able to controvert the statements made by Dr. Lansdell in his book on Russian Central Asia, as to the desirableness of Russian prisons as a residence, and the general humanity of the Russian Government," to communicate with him.

A NEW and curious remedy for fever has been discovered—probably by some funny person—in a malarious district of Russia. It consists of a powder prepared in this way: Live crabs are poured over with whisky until they fall asleep; then they are put on a bread pan in a hot oven, thoroughly dried and powdered, and the powder passed through a fine sieve. One dose, a teaspoonful, is generally sufficient to cure the intermittent fever; in very obstinate cases a second dose is required. Each dose is invariably preceded by a glass of aloe brandy, as a purgative.

ABOUT a week before the occurrences in Roumelia and Bulgaria which have led Russian statesmen to talk about deposing the Prince of Bulgaria, *Truth* made some observations about the young Prince's matrimonial prospects, adding:—"Prince Alexander's position is not as pleasant and secure as his friends could wish, and he cannot have saved a fortune during his six years' reign, although he is generally credited with a prudent disposition to remit as much money as he can scrape together to Frankfort, in order that, if the worst comes, he may at least be able to scamper back to Darmstadt with sufficient means to enable him to live in comfort and independence with his relatives in the Bergstrasse."

MILITARY NEWS.

COLONEL JUSTICE (M. S. C.), Commandant 8th Infantry, H. C., as already announced, has proceeded on 222 days' furlough to Europe, being the residue of his last year's leave. Surgeon G. J. Kellie, medical officer, 4th Cavalry, H. C., Mominabad, proceeds on one year's furlough. Consequent on the promotion of Captain Welchman (Ben. S. C.), Lieutenant Swete becomes wing officer, 2nd Infantry, H. C., at Hingoli. Captain Turner, R. A., commandant No. 3 Field Battery, having proceeded on privilege leave, Lieutenant Montanaro, R. A., officiates as commandant.

GENERAL HUDSON'S new staff at Suakim is thus composed:—Colonel Rankin, Madras Infantry, Assistant Adjutant-General and Quartermaster-General; Captain Stevenson, Bombay Staff Corps, the same; Captain Steward, Madras, Senior Commissariat Officer; Captain Orr, Bombay, Treasury Officer; Lieutenant Acton, Madras, Transport Officer; Brigade-Surgeon Roberts, Madras, Principal Medical Officer.

THE head-quarters of the Madras Army were established at Bangalore yesterday, until further orders. General Sir H. Rowlands, the acting Commander-in-Chief, is about to visit Belgaum to make the final arrangements for its occupation by Madras troops.

A MADRAS paper hears that Colonel Ross-Church, Commandant of the Madras Volunteer Guards, has decided to come back to India, and serve a few years longer to entitle him to retire on colonel's allowances.

A CORRESPONDENT of the *Broad Arrow* says that the proposed new military college to be established in India ought to be called the "Churchill College." "This is a grand forward movement, as it sets the example for local examinations for appointments in the Covenanted Civil Service; the disestablishment of Cooper's Hill Civil Engineering College at Egham, and making use of the splendid colleges already in existence in India—Thomason Civil Engineering College, Rurki, North-West Provinces, to wit—for the purpose of training Civil Engineers for the Government service. It will prove a decided means for filling young native noblemen and gentlemen for commissioned appointments. No injustice to the ranks of the Native Army need occur by this suggested method of officering it. A great gain to India will result in the reduction of the 'home charges,' and consequent appreciation of the rate of exchange for India Council drafts."

THE MINNESINGERS' CONCERT.

THE Minnesingers' Concert on Wednesday evening at the Gymkhana drew an unusually large audience, and the society provided an exceptionally good entertainment for their guests. Surgeon-Major Close conducted; and the admirable way in which the programme was executed supplied evidence of the industry with which conductor and choir have worked since the last concert. The opening number, Marschner's part-song "Come Boys, Drink," might have been more crisply given, and it scarcely showed the Minnesingers at their best. A more interesting work was the part-song "Oft when Eve," which succeeded it, and the graceful melody of which was given with adjirable sympathy; the song eliciting a well-merited encore. Mr. Dixon's rendering of Hamilton Aide's Lullaby, with violoncello obligato by Dr. Close, was excellent; and the cordial demand for an encore which it evoked was a just recognition of a most expressive rendering, vocalist and instrumentalist fairly dividing the honours. Mendelssohn's Serenade, a singularly picturesque composition even for Mendelssohn, gave the Minnesingers a greater opportunity than the part-songs which had gone before, and they made the most of it, carefully observing its fine gradations of tone and colour, and giving a thoroughly effective interpretation of it. The programme, indeed, was largely given up to Mendelssohn, who was put under tribute for no fewer than four numbers. The most striking of them was the part-song with which the entertainment ended, "'Tis the song whose spirit," in a passage or two of which there was a slight sacrifice of harmony to vigour. Nothing, however, could have been better than the style in which the two other Mendelssohnian numbers, the "Summer Song" and the "Merry Wayfarer," were given. There only remain to be noticed Mr. Ward's rendering of an old German drinking song, and the "Two Roses Quartette," very well sung by Messrs. Watson, Roughton, Hardie, and Ward. Mr. Johnston accompanied throughout.

THE HYDERABAD CONTINGENT.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—An increase in the Native Army having been sanctioned, and fighting men being greatly needed, no better opportunity than the present can occur of relieving our faithful ally the Nizam of the burden of supporting the Hyderabad Contingent, and restoring to him his valuable territory in Berar. All who have seen this force of late must admit that it is not to be surpassed by any troops in India, as even Sir Fr. Roberts can avouch. The four cavalry regiments are well officered, and are composed of fine, soldier-like men; they are splendidly mounted on good-sized steeds, chiefly Arabs and well-bred Persians; they are well armed and equipped, thoroughly trained to the use of their weapons, and undeniably first-rate equestrians. The professional acquirements of the native commissioned and non-commissioned officers are as high as, if not higher than, those of any other native cavalry in India, and the training they receive, and their state of efficiency, astonish all who know them. With the four batteries of field artillery, it is the same; and if they were only armed with the latest ordnance, no native artillery could be compared with that of the Hyderabad Contingent. Even as it is, with their present muzzle-loading guns, their practice is wonderfully good, and great credit is due to the officers of the Royal Artillery who command the batteries for their highly efficient state of their men. The native officers and men are all of a superior class, and more intelligent than those usually found in the Native Army, their education and training being of a high order. The horsing of these batteries has been most carefully attended to; the harness and saddlery, as well as the arms and accoutrements, are of the best description obtainable. In short, these four field batteries are as nearly perfect as they can be, and if taken on active service should be able to render a good account of themselves. A better body of men than the six infantry regiments of this force could not be found; and now that they have thrown aside the ridiculous costume they used to wear, and have taken to that introduced by Sir Frederick Roberts in the Madras Army, they are the most workmanlike-looking infantry to be seen between Cape Comorin and the Himalayas; and if they were only served with the Martini, instead of the Snider, they would most undoubtedly be hard to surpass. The interior economy, drill, and discipline of these foot soldiers are identical with those of the Bengal Army; and from all I have heard of the educational tests the native commissioned and non-commissioned officers have to go through, I doubt if any native troops in India can compete with them.

Here, then, we have a splendidly trained body of men ready to hand. The question arises, why not take advantage of them and commence by adding these 7,000 ready-made soldiers to the Regular Army? What is the use of keeping them as they now are, in a high state of efficiency, if they are never to be employed? At present they belong to neither one Presidency nor the other, and the Commander-in-Chief has no control over this force whatever. When war breaks out, the Chief of each army has his own tried and tested regiments to send to the field, and no Hyderabad Contingent troops ever get a chance. Since the Mutiny not an officer of the Hyderabad Contingent has seen service of any sort. A few from the many who volunteered for the front got to Afghanistan, and were chiefly employed in "mule and bullock tail-twisting" (Transport service); but none were employed with their regiments, or had any opportunity of distinguishing themselves and sharing the honours and decorations so freely distributed among more fortunate regiments. One regiment of cavalry, whose commanding officer no doubt was able to work "home influence," did get as far as Sibi, I believe, and was entered for the "Reserve Army" during the late Russian scare; but no other officer had the shadow of a chance of distinction.

Since the Treaty of 1853 the men have all taken the oath of allegiance to the British Raj, and have been recruited from all directions, exactly in the same manner as the sepoys of H. M.'s Regular Army. Then why should not the Contingent be added to the strength of the Regulars, and be brought under the Commander-in-Chief? The British officers, native officers, and men would all profit at the change. There would be no more heart-burning anent promotions and advancement of officers. No young fellow with a titled connection, or captain with a friend at Simla, would then be selected at the expense of his comrades, and the prospects of an officer on entering the force would be far better than they now are. As military reorganisation is now in full swing, why should not the Hyderabad Contingent be taken in hand at once, and made part and parcel of the Regular Army?

Hyderabad, Oct. 4. NEMESIS.

THE BOMBAY POLO TOURNAMENT.

THE second ties in the Tournament were commenced yesterday, and the teams drawn to play each other were Bombay and the Royal Artillery, the former of whom, it will be remembered, had beaten Poona, and the latter Secunderabad. The ground had dried up remarkably since the last day's play, and if the rain will hold off, it should be in perfect condition on Saturday for the final ties. Last evening's game was hardly up to the mark on either side at the commencement; but towards the latter half of the play it improved very perceptibly. Mr. Arthur, for Bombay, was undoubtedly the best of his side, his forward rushes being very formidable and his accurate hitting as goal-keeper being instrumental in saving Bombay many times. Mr. Gray played much better than on Monday, and his form yesterday fully entitles him to the second place in his team. Messrs. Savile and Barton, though at times they made excellent runs, did not nevertheless play as well as they usually do; and taken as a whole the game throughout was hardly as good on either side as it might have been. For the Royal Artillery, Sergeant Major Wark was infinitely superior to his companions, and except in a few instances, he played with his usual skill. Messrs. Hanwell and Clark played up well eventually, though frequently in the earlier portion of the game they, together with Captain Lloyd and the Bombay team, played somewhat loosely. This equal division of imperfections and subsequent improvement led to a very close game which, when darkness intervened to stop further operations, resulted in a draw, which will be played off at seven o'clock this morning.

1ST ROUND.

The Gunners won the toss for choice of goals (they selected the Pavilion one), and Gray and Wark faced each other for the first blow, the latter securing it. But it did not go far, and all the players dodged about all round the ball, missing it frequently. Gray was the first to get on to it, and made a determined rush, which but for an inaccurate hit must have resulted in a goal. As it was, the ball went behind the touch line, and when in play again Wark drove it along, closely followed by Clark, until Arthur stopped their career. Bombay then again rushed the R. A. goal, and, like Arthur, Hanwell prevented any damage. On hitting out again, a scrimmage took place in the centre of the ground, which was prolonged simply because no one seemed to be able to hit the ball. At last Hanwell secured it, and, well backed up by Lloyd, Clark, and Wark, he made the pace warm, and got near the Bombay goal, when some very pretty play by Barton, Gray, and Savile prevented their attackers from taking the position. Wark, however, just about half time got the ball, which was played to him by Hanwell, and placed it between the posts, thus drawing first blood for the R. A. Game:—R. A. 1 to Bombay 0. On changing ends, Wark was again first to the front, but when he was getting most dangerous he was neatly ridden off by Barton, which enabled Savile to make a good run, with Gray close by. Savile was then baulked by Hanwell, but Gray whipped in, and hit a goal for his side just as the bell rang, and so matters were balanced. Game:—1 all.

2ND ROUND.

The goal position of the teams at the opening of this round was the same as in the preceding one. Gray was quicker than Wark in getting the first hit, but it resulted in nothing, for then ensued much missing and loose play by both sides. Wark would probably have been the exception, but he couldn't get near the ball, with all the other players round it. The Sergeant-Major at last got his opportunity, but he was only able to get the ball to the side touch line. When the ball was thrown in, a considerable amount of hustling one another took place, during which Lloyd got away and made a fair run to close the Bombay posts, but a miss ended his career; then Wark had a round, but was stopped by Arthur, and Clark rushed in, hitting a goal and making the game R. A. 2 to Bombay 1. When play was again resumed, the Bombay goal was in danger until Gray and Savile made a combined effort through the Gunners, and something happened at the latter's goal which it would perhaps be as well not to notice, as it in no way influenced the score eventually. At the call of time the ball had been worked up the ground about half way, where it was hit behind the side boundary line.

3RD ROUND.

Both teams improved in this round, and played a very fast game. The Bombay forwards made a determined assault on their adversaries' goal. Gray and Barton hammered away without success, for Wark and Hanwell either intervened, or the want of accuracy in hitting straight rendered their efforts abortive; but the R. A. had a rough time of it. At last Hauwell, by dint of excellent play, gave his side temporary relief from danger, and made a grand run which might have been productive if the final stroke had been made in the proper direction. It went wide of the mark, and when the ball again came into play Savile, Barton, and Gray assisted each other in forcing the R. A. back, and the firstnamed player just missed the goal posts. The ball was in play when the bell rang, but when the round ceased the Gunners had again landed it behind the Bombay goal touch line, the game still being R. A. 2 to Bombay 1.

4TH ROUND.

The pace increased still more in this round, and for a while it was about as hot as each side could make it for the other; but the players missed frequently, thus denying themselves many advantages which they might have derived from their otherwise good play. It was generally at the last stroke that the players all failed, and this can only be attributed to the excitement which must have pervaded them at the critical moment. By degrees Bombay was driven back and hard pressed. Its representatives exercised great judgment in their "riding off" tactics, and this, combined with Arthur's splendid goal-keeping, saved Bombay. Arthur made strenuous efforts to get through the Gunners, and once, well backed up by his men, he got close to the R. A. goal, where ponies' legs got in the way and stopped two of his hits. After this the R. A. goal was persistently bombarded, until by a piece of neat play Gray put the ball in the right place, and again brought matters to a state of equality. Game:—2 all.

5th ROUND.

Goals were again changed, and almost at the outset Gray made a good run, and so precarious was the condition of the Artilleymen, that Hanwell was obliged to hit the ball behind touch to save his side. Wark played out, and the tables were turned, for he, Clark, and Lloyd between them carried the war into their adversaries quarters, and in turn pressed Bombay. Hanwell, who came up subsequently, got a fair hit at goal, but missed the posts by a yard or so. Then ensued a tight scrimmage, in the course of which Wark calmly dribbled the ball out through the crowd and again had a narrow shave of making a goal. The ball was at once taken away by Arthur, with Gray lying by to help, and Savile and Barton following up. Lloyd, however, rode the formidable Bombay goal-keeper off; but Gray was on the ball, and continued the excellent charge until close to the R. A. goal, where Hauwell came to the rescue and then rode through his opponents, forcing one of them to hit the ball into touch behind the goal in self-defence. At call of time the aspect of the game was still two goals all.

6TH ROUND.

This was the last round, and a very short one, because some of the minutes allotted to it had been utilised in former ones. Gray and Barton, Savile and Arthur all played up with great spirit, and pressed their opponents closely for a time; but the latter had no intention of giving in, for when their opportunity came Lloyd and Wark gave Bombay a good deal of trouble in return. Towards the end the players seemed to pair off to watch each others doings, and consequently the game was a series of frustrated efforts by all. When play ceased, neither side had won, so the goal posts were widened and the teams set to work again. It was now getting so dark that it was impossible to witness the doings of individual players, the judging from their movements collectively the final struggle was very even. Then it became too dark to play, so that the contest was stopped, and it was decided that these stubborn rivals should meet at 7 a.m. to-day and play it out.

The following is a list of the sides:—

ROYAL ARTILLERY.	BOMBAY.
Captain Lloyd (captain),	Mr A Arthur (captain),
Lieut H Clark	Mr C Gray
Lieut T Hanwell	Mr Savile
Sergeant-Major Wark	Mr L Barton.

In our account of Wednesday's play unconscious injustice was done to Ducat, playing for the Poona Horse, Forbes having been erroneously singled out for special mention, when Ducat was really meant to receive a well-deserved compliment for his plucky support of Stewart.

The game this afternoon is:—

Play to begin at 4-30.

RACQUET SILVER CHALLENGE CUP.

THE competition for this cup took place yesterday. Mr. B. B. Russell beat Captain M. B. Salmon 15 to 6 and 15 to 1. Mr. Salmon opened the game, and with successive runs of two and three points respectively reached five to his opponent's love. Mr. Russell now settled down, and getting possession of the court brought the score to "five all." After he had gained one point in his next effort, Salmon let his adversary in, who added two aces before he was displaced, and following these up with eight more by service the last man tioned player won the game by 15 to 6. Continuing in the next game, Russell reached nine before he was put out. Salmon, after one unproductive innings, scored his first and last point; for Russell, now going straight away with a run of six points, won the game, as above shown. The second round will be played off to-day as follows:—L. Rivett-Carnac *vs.* B. Russell, at 3-30 p.m., and R. H. Macaulay *vs.* Captain Lloyd, at 4 p.m.

CRICKET AT THE GYMKHANA.

VISITORS *VS.* THE GYMKHANA.

THIS match was played on Wednesday, commencing nominally at 10 a. m., but the heavy rain during the night previous prevented the ground being in a condition to be played upon until close on eleven o'clock. The result of this was that the Gymkhana had not sufficient time to inflict a one-innings defeat on their adversaries, though they were very close on doing so. The home club was strongly represented, although it was bereft of the services of Newnham, who as a temporary resident played for the Visitors; and the latter were fairly strong in the batting line, but the majority of them were unpractised, and therefore unable to make a stand. In bowling the Visitors were excessively weak, except in the case of Newnham; and had this gentleman not played for them, it is difficult to conjecture the probable number of runs the Gymkhana would have made, or how long they would have stayed in. Newnham, however, smote them "hip and thigh," when the Bombayites confronted him, and the only real stand made against his bowling was that effected by Prevost and Penny, who walked into him and crumped him about fearlessly.

The Gymkhana having won the toss, sent in Johnston and Penny at 10-50 to receive the attack of Newnham (Pavilion end) and Burrows (the opposite). Newnham opened with a maiden, with the fourth ball of which Johnston's middle stump believed its companions of its presence. One wicket for 0 runs.) Prevost took Johnston's place, and it came to Burrows' turn to trundle, which he did very loosely. His last three balls were productive of seven runs (a 2 and a single by Penny, and a fine on-drive for 4 by Prevost). In the same bowler's next over a wide and three twos by Penny produced 7 more runs, and 10 went up at 11-3. Newnham had in the meanwhile only suffered to the extent of a single. Then Penny drove Burrows for 3, and Prevost hit him to leg for 2, bringing up 20 at 11-8 (or 5 minutes since the last 10, and 18 minutes from the commencement of play). Penny now waxed courageous, and smote Newnham for 2 and 1; and Low relieved Burrows. Penny skied the new bowler to leg, but no one was near; and with the advent of Burrows' substitute, play quieted down. Prevost, who always plays a brave game, then walked into Newnham, and 30 went up on the board at 11-20, after which the same batsman drove the fast bowler grandly for 3. At 35 Penny was let off by Newnham at long slips—a very low hard chance—and at 11-27 40 was up. As no separation could be effected, Lindner relieved Low at 44, and opened with a maiden, during which Prevost was nearly run out, and he commemorated his escape by driving Newnham finely to the off for 3. A single by Penny was followed by another 3 by Prevost off Newnham; and 50 was hoisted at 11-35, and 60 succeeded 5 minutes later. Newnham at last effected a dissolution of partnership, by securing Prevost's leg stump with a fast ball which kept low. (Two wickets for 65 runs.) Prevost's 31 was a masterly, plucky innings comprising a 4 and three 3's. Jervois, who succeeded him, played Newnham twice, but the third ball he received shot and broke back, dislodging the middle stump with violence. (Three wickets for 65 runs.) Roberts followed; and 68 Penny again had a life in the shape of another hard chance, Newnham off Lindner—and he then drove the bowler to the off for 4, causing 70 to be signalled at 11-50. Roberts followed suit to square leg, and minor hits by both batsmen brought 80 on the board at 12-5. Lindner's last over was severely punished. Penny drove him for 3 and 1, and Roberts for 2. Burrows relieved Lindner, and at 12-25, in the course of Newnham's over, 90 was up by Penny brought up 90. One run later this batsman, who had played Newnham's fast deliveries with confidence, was betrayed by a slow from him, and was bowled off his legs. (Four wickets for 91 runs.) Penny's, though a lucky innings, was a well-put-together, useful one, and consisted of two 4's, two 3's, and smaller amounts. Carnegy joined Roberts and had a narrow squeak before he broke his 0. A miss ended his career; then Wark had a round, but was stopped by Arthur, and Clark rushed in, hitting a goal and making the game R. A. 2 to Bombay 1. When play was again resumed, the Bombay goal was in danger until Gray and Savile made a combined effort through the Gunners, and something happened at the latter's goal which it would perhaps be as well not to notice, as it in no way influenced the score eventually. At the call of time the ball had been worked up the ground about half way, where it was hit behind the side boundary line.

DR. J. COLLIS BROWNE'S CHLORODYNE.
THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists Medic Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 3 Great Russell-street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the well-merited reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances of the kindness of the agency of Dr. J. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralagia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's hemists.
CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
CAUTION.—Beware of Piracy and Imitation.
Sole Manufacturer—J. T. DAVENPORT,
Grest Russel-street, Bloomsbury, London.
